

WSQ: Maintain Composite Structures

Course Description

The WSQ Maintain Composite Structures (AR-CCU-202E-1) is a competency elective unit designed to train participants in three aspects; namely, to identify defects on composite structures, repair and perform wet and dry lay up of composite materials.

Participants will be taught:

- Fundamentals of composite materials
- Key reinforcements and matrix materials
- Identification of defects
- Nondestructive evaluation
- Tools for repair and inspections
- Repair processes
- Personal protection equipment
- Handling, storage and documentation

WSQ Competency Units

The Singapore Workforce Skills Qualifications (WSQ) system offers a systematic path for individuals to equip themselves with relevant competencies so that they can upgrade their skills, enhance their employability and stay relevant.

Certification

Upon successful completion of this unit, learners will be awarded with a Statement of Attainment (SOA).

Course Duration

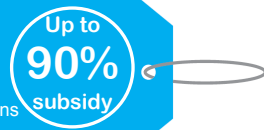

Full Time: 6 Days
